

### Instructions

Create a list of your credit cards. Write down the current balance on each. Find the APR for each and write as a percentage. List the minimum monthly payment. Use an online calculator and plug in your numbers to determine how long it will take to pay off each debt. Go back and fill in an extra monthly contribution to shorten the payoff length. Recalculate the payoff timeline based on the new total monthly payment.

Credit Card	Current Balance	APR	Minimum Monthly Payment	Extra Monthly Payment	Total Monthly Payment	Months Until Debt Free
Chase	\$1,500	10%	\$100	\$0	\$100	17
